MONTHLY

Clean with wood flooring cleaner

Date

DEEP CLEANING

Schedule a cleaning every 3 months for optimal protection

Date

IMPORTANT TIPS

- Clean spills immediately with a dry or slightly damp cloth.
- Don't use wet mops or steam mops. They will damage the finish and the wood over long periods of time.
- Use a cleaner made specifically for the finish on the floor.
- Install floor protector pads on the bottom of all furniture to prevent scratches and gouges.
- Place rugs at all entrances. They help trap grit and absorb moisture before either one has a chance to damage the finish.

EVERY 3-6 MONTHS

Deep Cleaning should be performed 2-4 times a year to remove dirt and grime build up creating a healthier environment, adding protection to your finish, and saving money.

EVERY 3-5 YEARS

Maintenance Coat should be reapplied to avoid costly repairs and a complete sand & refinish process.

EVERY 10-20 YEARS

Refinish your hardwood floors to repair major damage like deep scratches, gouges, discoloration and fading. Also a great opportunity to update the look of your floor.
